**Health Survey 2004**

- Please fill out information on each Kerry Blue Terrier that you have owned in the last five (5) years.
- Provide information on each dog separately. Make additional copies of this form, or print more from http://www.kerryblues.info/ by clicking on “Health.”
- For each dog, enter the appropriate Disease Code for each disorder that has affected the dog during its life. Comments about the method of diagnosis and the treatment would be helpful.
- Please report dogs that have had no health problems—it is very important that healthy dogs be included.
